WORK EXPERIENCE

ByteDance / TikTok *Fullstack Software Engineer* **09/2024 – Current**

- Integrated the Feelgood Survey system for multiple TikTok Shop sellers to directly collect user feedback, designed dashboards for data visualization, and empowered operations and development teams to continuously improve user experience.
- Contributed to the development of the Global E-Commerce Intellectual Property Platform (IPPC), building complaint and appeal systems for IP holders and sellers, leading to a DAU increase from

..... too much.....I'm done lolll
